Electronic invoices in Estonian public sector

Marek Ilves

State Shared Service Centre

Head of Economic Software Development Department

08.02.2013

RIIGI TUGITEENUSTE KESKUS

- The Public sector is very interested in the introduction of e-invoicing, including both public and private sectors and is actively looking for ways to contribute to this process with a maximum.

- Less time for invoice processing

- No typing errors

- No need space for paper invoices archive

RIIGI TUGITEENUSTE KESKUS

•e-Invoicing – is electronic transfer of invoicing information (billing and payment) between business partners (supplier and buyer).

• 7% is e-invoces

• PDF is not e-Invoice

```xml
<?xml version="1.0" encoding="UTF-8" ?>
-<E_Invoice>
      -<Header>
              <Date>2009-12-01</Date>
              <FileId>123456</FileId>
              <Version>1.1</Version>
       </Header>
      -<Invoice invoiceId="45678" regNumber="12345678">
              -<InvoiceParties>
                      -<SellerParty>
                       <Name>TESTMÜÜJA AS</Name>
                       </SellerParty>
               -<BuyerParty>
                       <Name>TESTOSTJA AS</Name>
                       </BuyerParty>
        </InvoiceParties>
              -<InvoiceInformation>
                      <Type type="DEB" />
                      <DocumentName>Arve</DocumentName>
                      <InvoiceNumber>45678</InvoiceNumber>
                      <InvoiceDate>2009-12-01</InvoiceDate>
               </InvoiceInformation>
              -<InvoiceSumGroup>
                      <TotalSum>1.12</TotalSum>
               </InvoiceSumGroup>
              -<InvoiceItem>
                      -<InvoiceItemGroup>
                      -<ItemEntry>
                              <Description>Ostetud teenus</Description>
                       </ItemEntry>
                       </InvoiceItemGroup>
                       </InvoiceItem>
```

Project achieves(2010-2012)

E-invocing (billing) is currently used by 88 state authorities, E-invocing (billing) has shown that it was the right decision and we must move on with the process

E-invoices management system

+ Management system- comfortable, quick, transparent, cheaper than management with paper invoices

+ Automatization in accounting side

—Digitalization costs

—Hand writed invoices

What possibilities is to ask e-invoices from suppliers?

• Requirements for e-invoicing in public procurement, contractual arrangements;

• Free portal for small businesses send e-invoices

• Inform and train different targets
